CEYLON.

The collection for this Colony extends from the earliest known coins until the present time. Several specimens are believed to be UNIQUE.

It is difficult in dealing with Eastern coins to ensure that every false coin shall be discarded; but it is believed that this result has here been attained, because every coin doubted by good authorities has been excluded.

Many of the coins are the identical ones figured in the plates of " THE NUMISMATIC CHRONICLE," *vol. XV, third series, p.* 211-268.

282 CEYLON. A rare *Silver* Coin, with Dagoba and leaf (*Num. 285 A Massa of *Nissanka Malla* (*Num. Chron., pl.* VIII, 7) (1)

*** Rhys Davids, at par. 66, gives the names of the owners of the only three specimens known, and he was, unfortunately, unable to obtain either for illustration of his work. The present specimen is in finest possible condition.
